

NORWAY

Overall Index Score 74.7

Overall Index Grade B

Norway's retirement income system comprises an earnings-related social security pension with a minimum pension level. There are also many voluntary arrangements to provide additional benefits.

The overall index value for the Norwegian system could be increased by:

- raising the level of household saving
- increasing the level of mandatory contributions into the defined contribution plans
- introducing arrangements to protect all the pension interests of both parties in a divorce

The Norwegian index value in 2017 is 74.7.
